My name is Celeste, and I am a 9-year-old with a big dream – to use my love for performing to make a difference in the world. I love to act and have taken several classes. I believe that being in the entertainment industry can be a powerful platform to inspire others and make a positive impact. I dream of using my voice to raise awareness about important issues like protecting our oceans and helping endangered animals. I believe that as an influencer, I can encourage others to make a difference and help create a better world.

I am a creative, energetic, and enthusiastic girl with a strong work ethic and a genuine desire to learn and grow. I am excited by the possibility of using my talents to entertain and inspire, while also making a real contribution to the world.
