

Cover Letter

My name is Phillip and I am 10 years old. My interest for acting sparked when I was taking hip hop dance classes at a local studio. The studio offered other classes such as beginners acting. My acting training didn't last long due to covid; however, I became passionate about it. I enjoyed portraying different characters and displaying different emotions.

I have excellent communication skills and I have training in expressing different emotions. I am a good listener.

I am able to take constructive criticism and follow through on feedback.

I am dedicated and work well with others.

I look forward to new experiences and taking on new challenges.
