

COVER LETTER

My name is Oden Nile Gild and I'm 10 years old. I live in upstate NY in the country in the beautiful Hudson Valley. We used to live in the New York City but now we live on 20 acres and have lots of animals (goats, chickens, geese, turkeys, guinea hens, 6 dogs and 3 cats). I love it here.

I'm going into 5th grade and am excited to be with my friends again. I have spent some time with a good amount of them at camp and have been able to play with some of them during the summer, but I missed seeing and being with everyone. I love school, not only because my friends are there but also because I love learning.

Outside of school I play soccer and want to get into theater. I also want to learn how to play tennis and play the guitar and drums. I love singing too. My voice is deep for a kid my age but I think I'm a good singer. Of course, I'm really into video games, especially roblox and fortnight and I love anime.

The reason I want to go into the entertainment business is that I love being on stage, I love to perform and I love to make people laugh. Singing and dancing makes me so happy too. I think I would be great at voice overs but am excited to act and hope one day I can either be in a disaster movie or be the main character of a cartoon.

Thank you for your time,
Oden
