## **SPECIAL SKILLS**

I have been playing soccer for more than 4 years now, and my team and I even won the championship! It was awesome getting a golden medal as a reward. Recently, I started doing Taekwondo, and I am at the white belt level. I have also been playing the piano for 4 years, and I really love it. School-wise, I'm doing great, often getting A+ grades. I have also been acting in some school plays. Once I acted as Joe Biden in a school government project, and it was really fun doing it. I also acted in a different play twice, and I think I am getting better each time I perform. Now I'm thinking maybe I could try acting in commercials or even modeling!

Apart from all that, I enjoy hanging out with my friends and family, playing sports like basketball and frisbee. Reading is another favorite of mine, especially mysteries, comics and chapter books. I also like to draw and make stuff out of paper. Oh, and playing video games and watching cool YouTube videos are things I do for fun and to learn new things for the future.
