

Hi! My name is Kenya West and I've always known I've wanted to be in entertainment. Ever since I was a little girl I knew I didn't want to have a normal job. I thought everyone felt that way until I'd hear people say things like pediatrician or engineer. My aspirations changed quite a few times but they remained entertainment based. Comedian, Youtuber, Singer, little me spent years dreaming of a career where I could perform. I'd never considered acting that much until I got into watching musicals and joined my schools drama club.

I go to a STEM (Science Technology Engineering and Math) school, so wanted to be and actress always made me feel like a little bit of an outcast. All my friends that want to be doctors or work for NASA always felt like they knew what they were doing way more than I did, and for a long time I had no idea how I would be able to follow my dreams. But now that I finally have the opportunity to prove that this is what I'm meant to do, I couldn't be more excited.
